LOCAL LITERIES. No. 3.
This is our Past Day, and though honored much, Like other things, has known times changing touch, And from its ancient use gone for a stray, To pluck his stomach with the Roundhead's aim. But now his sons and sons are fast— And daughters, too, sometimes are much the same— And a gait that cannot always last. Those rare old fellows who on ground-nuts fed, Could for religion still that feast forego, And listen to long sermons with bowed heads— To us their fast day seems a confounded show!

The steamer City of Richmond, from Portland, arrived at her wharf at 12 o'clock Tuesday noon, having left Portland at ten o'clock the previous night. Capt. Dennison reports rough weather outside. He made a harbor at St. George at 2 o'clock in the morning, and left at 5. The Katahdin was lying there when the Richmond left. The Richmond had a large number of passengers and a heavy freight list. She has been put in first-rate order, and looks as nice as a pin. Her officers are as follows: Wm. E. Dennison, Captain; Edward Clapham, Engineer; George Loomis, Second Engineer; Mr. Kirby, Pilot; Mr. Ballister, 2d Pilot; C. L. Milliken, Mate.

A young man of this city who rejoiced in the possession of \$85 in gold and lawful money, carried the same in a roll tucked into his vest pocket. He was also accustomed to smoke a short pipe, and to deposit it beside his money. Feeling an unusual warmth in that region one day, he discovered that the pipe had set his money on fire, and that it was all consumed except a few ends of the bills, of not value enough to buy him a week's tobacco. He is considering the question whether it pays to smoke.

A SMART WOMAN. Mrs. George W. Nickerson, of Belmont, whose husband is absent, heard, on going to the barn at midnight recently, and on disturbance found a lamb which the dam would not own. Having quitted that matter, she went to bed, to be again aroused by a commotion in the yard. Going out, she found that a lamb a few weeks old had fallen into a deep well. By help of a rope, she went into the well, rescued the lamb, warmed it back to life by the fire, and was ready for any other emergencies.

The April term of the Supreme Court commences in this city next Tuesday, Judge Dickerson presiding. The most important trial will be the case of Joseph B. Howes against Dr. N. P. Monroe, in which the plaintiff claims to recover compensation for loss of his sight through the alleged malpractice of the defendant. A. G. Jewett is the plaintiff's attorney; F. S. Nickerson for the defense.

Lewis & Crosby made a fine display of fresh fish last Saturday. One of their vessels arrived with 3000 pounds of fresh-caught halibut and about two tons of cod. They were in fine condition, and displayed in their store made an attractive sight. When the railroad is completed, an important business will be the supplying of the region lying back of Belfast with fresh fish.

The steamer Alliance reached her wharf in this city on Friday morning, on her first trip. She is a three-masted iron propeller, of about 800 tons, with accommodations for about sixty passengers. She was the first boat to reach Bangor after the ice was out. The following is a list of the officers of the Alliance—
Thomas Shute, Captain; E. L. Clark, Clerk; J. M. Lewis, 2d Clerk; Warren H. Howland, Chief Engineer; Dennis Harrington, Asst. Engineer; E. W. Curtis, 1st Mate; W. L. Chase, 2d Mate; Wm. Fowler, Steward.

A great deal of merchandise is going forward from this city to Bangor. The Katahdin has very heavy freight on Monday, as well as a large passenger list.

The heavy rain of Monday night caused considerable damage to the roads. In this city some of the streets were washed and sewers burst open by the flood.

The man whom we reported as having successfully slain four skunks in single combat, complains that full credit was not given him. There were five of the odorous animals, and we amend the record accordingly.

A sanguine gardener in this city promises that in our issue of June 10th, we shall chronicle the fact that full-sized green peas have been gathered on his premises. We are skeptical about it.

With the opening of the Railroad, and facilities for getting lectures, there is no reason why there should not be a course of Lyceum lectures in Belfast next winter. Let it be borne in mind.

THE ELECTION IN RHODE ISLAND.
PROVIDENCE, R. I., April 6, 1870
The state election to-day resulted in the reelection of the present republican State officers by about the usual majority. The vote was light. The chief interest centered in the choice of the General Assembly, which elects a United States Senator. A large majority of the Assemblymen are understood to be in favor of the reelection of Senator Anthony. The Senate probably stands twenty-three republicans, eight democrats, one citizen's and one no choice. The House will probably stand fifty-two republicans, fourteen democrats, four no choice. The republican majority in the State is about 4,000.

PROVINCIAL MATTERS.
HALIFAX, April 11.
In the Legislative Assembly to-day petitions were presented asking the British Government to release or absolve Nova Scotia from allegiance to the Dominion.
Resolutions were also offered by Mr. Diehie against the Dominion national policy. In support of the latter Mr. Diehie requested statistics to show decrease of trade since the abrogation of the reciprocity treaty. He declared the people dissatisfied with the confederation, and that unless reciprocity was resumed the dissatisfaction will increase. He charged the Dominion policy with neglecting to make efforts for reciprocity and urged the disastrous effects of the duty on flour upon vessels engaged in the American coal trade, as it would prevent their taking a return cargo.

A QUERY.
[Hon. S. H. Dale, who was Mayor during the war, and of course interestedly connected with the subject of enlistments furnishes us the following communication:]
Mr. Editor: It is refreshing after reading the speech of the Hon. Mr. Farwell to reread the conclusion so windy that it needs but to be punctured as to show whose "ox has been gored."
"I have done. I conclude that our Roll of Honor is long enough—that our pension list is large enough. Liberty has triumphed and justice has vindicated her rights to enthronement."
"To-day they stand thus exalted through agony and death. The young men of Maine were assigned their part and were crowned with marvelous honors in these great achievements."
"Maine contributed the full measure of her energy and her patriotism in the struggle for the Union. Let her war record, which will one day so dignify history, under the smiles of Providence, stand secure against the friendly and thoughtless. Let us proclaim our soldiers as illustrious among men; the 'darlings of Providence and the companions of angels,' and swear on hended knees that the names of men who contributed so much in lifting a race to manhood and a broken Republic to Empire and grandeur, shall be transmitted through all the generations with constantly augmenting gratitude and love."
The simple question we would like to ask the Honorable gentleman is if the
1st District had 758
2d District 208
3d District 409
4th District 232
5th District 871
2878 in all.
If these "Marine Credits" were belonging to Maine as a portion of her quota to be assigned why the several towns in these districts had to be victimized by such men as Pike, Manley and others of Augusta to the tune of from two to four hundred dollars a head? They had their confederates pocketing the nice little sum of at least one hundred thousand dollars. Will the Honorable gentleman inform the "victims" of [Bangor Whig.]

THE FISHERIES.
The following message was sent to the House by the President, in answer to the resolutions relating to the fisheries in British waters—
"I transmit a report from the Secretary of State and the papers which accompanied it, and I have to state that the commanding officer of a naval steamer ordered to the fishing grounds, will be instructed to give his attention, should circumstances require it, to cases which may arise under any changes which may be made in British laws affecting the fisheries within British jurisdiction, with a view to preventing wrongs as it may be, and to the protection of the citizens of the United States and Great Britain in 1818, the laws in force relating to the fisheries within British jurisdiction, or any illegal interference with the pursuits of the fishermen of the United States."
(Signed) U. S. GRANT.

A MONUMENT TO THE MEMORY OF THE ONEIDA'S CAPTAIN. Captain Albert De Grand of New York, suggests at a meeting of sea captains be at once called, to express their admiration of the conduct of Captain Williams, of the ill-fated Oneida, and to urge upon government the propriety of erecting a suitable monument to Captain Williams at Annapolis, where the young men who are to be officers of ships hereafter would see it, and be continually reminded by it of the requirements of an officer's post in times of a great peril, and of the unflinching honor that will ever attach to their faithful fulfillment.

LAUNCHED. There was launched from the yard of Messrs. Neafe & Levy, Philadelphia, April 2d, the steaming Ralph Ross. She is 105 feet long on deck, 24 feet breadth of beam and 9 feet depth of hold. She is supplied with two condensing engines, and is designed for the general towing and the carrying business on the Penobscot River. Her fittings are very complete, being furnished with a double acting steam pipe, fire engine and wrecking pumps. The Ralph Ross is owned by Capt. Hugh Ross of this city, and will be commanded by Capt. Wm. W. Snow, late of the steaming Terror. [Whig.]

"SHOOT FOLLY AS IT FLIES." and stop using preparations on your head which are composed of poisons. Use NATURE'S HAIR RESTORATIVE, which by its cleanliness, fragrance and purity commands itself. See advertisement.

We would call the attention of our lady readers, especially invalids, to the advertisement of Mrs. M. A. Cullinan, of Waterville, who is found in another column. The remedy which she offers for the cure of Female Weakness is entirely vegetable, and has been used by thousands with the most remarkable success.

COMMON HARD SOAP. Put in an iron kettle five pounds unclacked lime and three gallons of soft water; let it soak over night; in the morning pour off the water, and to the residue add three and a half pounds of grease, boil till thick, turn into a pan until cool, and then cut in bars.

"THEIR NAME IS LEGION." may be applied to those who annually of Consumption, although the cure has of late years sensibly diminished their number. It is gratifying to know that the general use of Dr. Wistar's Balsam of Wild Cherry is largely instrumental in attaining this end.

The public are hereby assured that the columns of the Journal, that Parsons' Purgative Pills contain no injurious principle, but that they may be administered to children and the most weak and shattered constitutions in small doses, with great certainty of success.

DR. A. JOHNSON, one of the most successful practitioners of his time, invented what is now called Johnson's Kidney and Bladder Pills. The success of this article in the cure of Bronchitis and all diseases of throat and lungs, will make the name of JOHNSON not only favorably, if less widely known than that of Louis Napoleon.
